Returns Policy:

Incorrectly supplied or faulty goods should be notified within 10 days of receipt, if the goods have to be returned please ensure the invoice number or delivery note is stated on the returns note, the goods will then be inspected and repaired or replaced as required. The postage costs for faulty goods will then be re-imbursed. Goods returned due to customer error when placing the order will be subject to a 25% restocking charge and the return postage will not be re-imbursed. Any replacement parts will only be despatched once the faulty items are returned. If replacement parts are required urgently then they will be sent and invoiced, and a credit will be raised once the faulty items have been returned and inspected. Central Wheel Components Ltd will not be liable to any indirect costs for any returns.(ie labour cost to remove or rebuild wheels, or competition entrance fees)

Disclaimer:

At Central Wheel we endeavor to supply goods as ordered, all our parts are made as replacement parts and as such may not be exact replicas to originals. To hold tooling in stock to cover all the spokes ever produced for every model is both impractical and impossible, however all spokes supplied will be produced in the knowledge that they will be suitable for use in the rebuilding of the respective wheel. Where possible all rims will also be supplied to the original dimple and spoke hole configuration, this is not always possible on pre-dimpled stock rims, on these occasions the drilling pattern will be changed to accommodate safe fitment to the customers hub. It is in the interests of both Central Wheel Components Ltd and you the customer to be clear in your requirements when placing your order to eliminate the possibility of incorrect supply. For less common models of bike, spoke samples or spoke lengths should be supplied where possible, and hub diamensions supplied for the purpose of correct drilling of the rims.
